**Subject: Etiquettes during Distance Learning**

Dear parents,

Greetings from JSS Private School!!

We have earlier shared a list of common rules for good online etiquettes during Distance Learning (Here is a quick [LINK](#) to our previous communication). Further to our list of common rules, an important rule which has been made non negotiable from 22<sup>nd</sup> September 2020 is that during Distance Learning classes, students must keep their cameras on and show their face.

In a class, teacher not only listens to his/her students' words but also look at their body language and gestures. General demeanor is an indication of students' engagement. When students see each other, peer to peer interaction is also more effective.

Henceforth, we urge all parents to encourage their ward to keep the cameras on during online classes. For Learning space – Teacher's instruction is to be followed.

Regards
