Dear Parents,

You have been using Pupil Pod as parent login so far. However, we are moving to the use of a different software which is a new school management system.

During this final semester we would like to request you to also use the new software as a trial run. Please familiarize yourselves with it. For this semester alone we would like you to use this new software, for circulars and report cards, in addition to Pupil Pod. Your username and password will be sent through your child. Please use this link to access the site.

From the next academic year beginning April 2018, we will only use the new software.

Kindly update your email address and phone numbers in the new software.

Regards,

Chitra Sharma
Principal
