1 March 2020

## Subject: Guidelines from KHDA

Dear Parents,

We have received the following guidelines from KHDA in a bid to control the spread of the Covid-19 outbreak, which the school will be strictly adhering to.

The highlights of the circular are as follows:

### **Precautionary Health & Safety Measures in Education Institutions**

#### **To all private Educational Institutions in Dubai,**

As part of the precautionary and preventive measures taken to reduce the possibility of transmission of the COVID 19 virus infection (the new corona), the Knowledge and Human Development Authority calls upon all private educational institutions in Dubai including early learning centers, schools and universities to stop all the following, starting with immediate effect until further notice:

- All internal and external trips.
- Competitions, festivals and activities inside the educational institutions, especially those that require student gatherings.
- Events and activities between Educational institutions or with other parties/partners and any teacher events.

With this communication, all pre-planned trips and related approvals issued by KHDA became invalid. We trust all educational institutions to adhere to the above keeping in mind the health of students and faculty.

Thanking you in advance for your cooperation.

Warm regards

  
**Chitra Sharma**  
Principal
