

مدرسة جيه اس اس الخاصة
JSS PRIVATE SCHOOL

Grades KG-12

JSSPS/CTP/PO/GEN/76/19-20
29September, 2019

Dear Parents,

You are kindly requested to follow the health instructions given below:

1. If your child is not keeping well and needs continuous care, please do not send him/her to school as the school clinic administers only First Aid.
2. If your child is suffering from any viral infection like viral fever, sore eye (conjunctivitis), chickenpox, mumps, measles etc., please do not send him/her to school until he/she is completely cured.
3. Children are not allowed to keep any medicine with them in the classroom. If any medicines like antibiotics are to be taken during school hours, these should be kept in the school clinic along with the doctor's prescription (or) a signed letter from the parent mentioning the dosage/time. Kindly follow the instructions.

You must provide the school with the treating/family doctor's clearance certificate before your child can resume classes.
