

Commemorating the memory of the late HH Sheikh Zayed, and encouraging his vision of tolerance and peace, the parent forum members and students bring joy to the ancillary staff.

Reinforcing the spirit of solidarity amongst community members through selfless giving and extending a helping hand to all those in need the parent forum as well as the students came together to add smiles on the faces of the ancillary staff. Prior to the commencement of the summer vacation, the parent forum along with the students of grade 2 and 3 handed over vacation kits to the bus monitors, school security staff, drivers and cleaners of the school. Each kit consisted of toiletries namely shampoo, deo, soap and perfumes.

The ancillary staff were overly delighted to receive the gifts. It came at a time when most of them would be travelling to their home country and it served well as gifts for their loved ones. Students were also excited to hand over gifts to their bus monitors and drivers. It brought about feelings of gratitude towards the people who work so hard to look after them once they leave the

confines of their home.

It is these intermittent acts of reaching out, that helps to carve the character of the students and build a strong foundation for their future.
