

Be - you - tiful

Be who you are,

Say what you feel,

Do what you want,

It's no big deal.

Don't be ashamed

Of the way you are,

You can't shine without darkness,

Because you are a star.

If others don't like it,

Then let them be,

Life isn't about,

Pleasing everybody.

~ Anamika Jetson

Mothers

There is someone in my life

Someone who cares for me

Someone who loves me

More than the ocean

She is always beside me during my hardships

She stands beside me during my achievements

She does not receive a salary

She does not even expect anything for all she does

Her love is immense

She is ready to give anything and everything for me

She is the only one who never likes to see me sad

She is no other than my Mother

I love you mom.
