

JSS PS students inspired by Mr. Chakravarthy Sulibele

The students of grades 9 and 11, entered the auditorium and filled in all the seats, eagerly looking around, anticipating what was about to happen.

After a warm welcome to a few guests seated in the gathering, Ms. Rianne Selwyn introduced the crowd and most importantly, the motivational speaker Mr. Chakravarthy Sulibele.

He took over the stage with pride and confidence, attracting the attention of all the people gathered there. He spoke with enthusiasm and kindness, addressing us all as his 'dear friends'. He took time in persuading us with his enticing stories and real-life experiences.

He narrated stories to us, of people who strongly believed in Swami Vivekananda, a great teacher and social speaker. Swami Vivekananda went to foreign countries to take India's spiritual culture and bring wealth to India, and all of this was beautifully described by Mr. Sulibele.

He spoke to us about Arunima Sinha, the first amputee to climb Mount Everest, the highest summit of the world. Her dedication and hard work, empowered all of us, even though she wasn't the one talking!

Mr. Sulibele made us believe that anything is possible with determination and concentration. He told us that we need to train our mind to control our senses, and only then can we achieve the world.
