

## JSS PS participates in Gulf Traffic Week .

The students of JSS PS were invited by RTA to participate in the Gulf Traffic Week Campaign from March 13<sup>th</sup> to 17<sup>th</sup> 2016.

Innovative events were organized by RTA along with the Dubai Police, Dubai Ambulance and Nissan. The theme " Risk of Using Mobile Phones While Driving"

The initiative of RTA to encourage youth in researching and discussing traffic awareness issues is a matter of appreciation. Targeting school students is particularly important as this vital community segment has creative potentials and innovative ideas.

The students of JSSPS also took part in the competition with great zeal and enthusiasm. Various performing arts were staged

varying from street play to dance mime to contemporary dance style to hand mime.

Amidst the busy assessment schedules our students took great interest in practicing for the same which shows the commitment they have towards spreading good values across. They put their best foot forward to present a quality show in front of the RTA officials. All the events presented won the hearts of the audience and clearly spread the message of following road safety rules. They had taken a vow that they would spread the message across in their best possible ways.

RTA has given a great opportunity to nurture such talents and to guide them to the right direction. This competition has left the door open for school students to think and research on traffic issues and challenges and try to come up with suitable cracking solutions. RTA recommends students to believe in the value of their deliverables ,develop a passion and pay attention to improve traffic safety levels in the Emirate of Dubai.

Overall, the program was a huge success which once again showcased the talents of our students.
