

Grade 4 and 5 Students of JSS PS recognize – School bus monitors

As a part of the community activities, a unique event was organized by Grade 4 and 5 section, in the month of June 2016, to recognize and appreciate the hard work and sincerity of the bus monitors.

As a tribute to those of the members of the JSS family, who take care of the children day in and day out, and see to it that the children are picked up and dropped back at home safely, we planned for an event exclusively conducted by the bus monitors that would bring out their latent talents.

Though there was an initial resistance and hesitation, on the day of the program, the teachers and the students were pleasantly shocked to see so many of the monitors coming on to the stage and exhibiting their skills and talents. Some of them even confessed that it was a surprise for them that they can perform something of this kind on the stage.

Some of the monitors danced on the stage, some sang and there was mono-acting too! The highlight was a skit in which they depicted a realistic scene of what happens each day in the bus. They brought to light the problems they face in handling kids in the bus, both big and small. It was a hilarious one and the kids were seen roaring with laughter.

Games were conducted for the monitors and prizes were awarded on stage. Light refreshments were provided for the monitors and the students handed over 'Thank You' cards made by them. The monitors were overwhelmed by the love and care shown by the staff and students. They expressed their feeling that they are looking forward to more events of this kind. The children had contributed money and as a token of our love, gifts were distributed.

It was a unforgettable day for the students, staff and monitors.
